General Manager

**PROJECT BENEFICIARIES AND STATUS OF IMPLEMENTATION**  
*For Calendar Year 2019*

**I. PROJECT OBJECTIVES AND BENEFICIARIES**

The Project aims to improve the water supply system of Silay City Water District. The new project will directly benefit 11,855 people. These include the increase in the water supply and storage capacity. Also, the main objective of the project is to increase the water system pressure during the PEAK DEMAND.

Moreover, the new water system project will directly benefit 7,296 men, women and children or a Total of 1,460 households.

**II. PROJECT SCOPE AND COVERAGE**

The continuing construction of additional Ground Reservoir and Boosting Facilities will benefit the concessionaires in the areas of Brgy. Guinhalaran, Brgy. Mambulac and parts of the Poblacion. We can provide an adequate and higher water pressures on the said areas.

The initial stage of the proposed water system project which is located at Brgy. Bagtic Silay City will provide opportunities for the new applicants to avail our services. At least 1,460 households and 7,296 individuals will benefit on this expansion.

Presently, Silay City Water District is serving eleven(11) out of sixteen (16) barangays of Silay City, Negros Occidental.

**III. PROJECT SCOPE AND COVERAGE**

The project will be funded by the Development Bank of the Philippines(DBP) and Internal Cash Generation Fund (ICGF) of the water district. The implementation will cover a period of 12 to 15 months from the start of construction activity. This includes the program preparation, public bidding, materials acquisition, mobilization, construction, project completion and acceptance. Also, the project will be implemented

"BY ADMINISTRATION" as SICIWA is a capable water district to handle such projects.
